

WeBWorK

There will be frequent online assignments on WebWork.

To login: Your username is your UNB login ID in lowercase letters, and your initial password is your *student number*. Once you have successfully logged in for the first time, you may change your password by clicking on the "Password/Email" link in the leftmost column.

Some WeBWorK pointers:

- For some problems you have a finite number of attempts, so guessing is a bad idea.
- Make sure you hit "Preview Answers" before submitting your answers, this allows you to catch simple errors without wasting an official attempt at a problem.
- Read the questions carefully, especially information about how to enter in your answers. For example, different problems might ask you to enter "yes", "Yes", "y", or "Y" for an affirmative answer to a question; and they will mark any other response as wrong. Not reading the question carefully is not an excuse for a wrong answer.
- Tablet and smartphone users beware: WeBWorK is case sensitive. So, if your device automatically capitalizes the first letter of a sentence, you might inadvertently send a wrong answer.
- If you're having trouble with any WeBWorK problem, hit the "Email instructor" button. This will send a message to one of the course instructors along with a link to the specific page you're having difficulty with. This is a much more efficient way of dealing with issues than if you were to email your instructor directly.
- There is a WeBWorK guide for students that may be helpful.
